A Guide to Life Cycle Assessments (LCAs)

WHAT IS AN LCA?

WHY CONDUCT AN LCA IN THE BANKING SECTOR?

- Completeness and insight
- Additional value creation
- Marketing
- Everyone uses financial services
- Design
- Compliance

THE PROCESS

- 1 Introductory meeting
- 2 Definition of product's goals, scope and value stream
- 3 Collection of product's emission data

- 4 Product's emission data is reviewed for accuracy
- 5 Product's GHG emissions are calculated
- 6 LCA is reviewed for data quality and uncertainty
- 7 Production an LCA report with emission reduction recommendations

DEFINING THE GOALS, SCOPE AND BOUNDARY

CALCULATING THE INVENTORY

ASSURANCE

Type of assurance	Description	Independence mechanism
First party assurance	Person(s) from within the reporting company but independent of the GHG inventory determination process conducts internal assurance.	Different lines of reporting
Third party assurance	Person(s) from an organization independent of the product GHG inventory determination process conducts third party assurance.	Different business entity from the reporting company
